Walnut Tree Walk Healthy Neighbourhood

Identify Stage - Engagement Report

September 2024 - January 2025

Engagement activities

- Walk & Talks
- Online Interactive Map
- Business Drop-ins
- Estates & Housing Outreach
- Leaflets & Letter Drops
- School Engagement

What we found

6,665 flyers sent out to residents & businesses

156 comments from residents on interactive map on Have Your Say

15 stakeholder meetings

20 people attended the walk and talks

1 schools workshop completed with children from Walnut Tree Walk Primary School

> There is also an issue with cars and motorbikes purposely speeding along Lambeth walk and Fitzalan street during the day and at nighttime because the speed control in place is not sufficient.

What people wanted to change

> At the moment this area has a few sad looking planters, why can't it be grassy and lush rather than a concrete slab?

> The junction on Lambeth Walk where Fitzalan street and Juxon street join is particularly problematic

> This road must be made safer for the hundreds of children who cross it daily, and not just at school times.

General Concerns

Some of the local residents have expressed concerns regarding:

- Road danger for pedestrians, cyclists, and schoolchildren due to speeding vehicles and poor visibility at junctions, potholes and uneven pavements, lack of safe crossings, traffic calming measures, and cycle lanes
- Lack of street lighting and CCTV

Some local businesses have expressed their concerns regarding:

- Lime bikes and other hire cycles obstructing pavements
- Vehicle use for deliveries, heavy goods and customer access
