## Business Cycle Hangars - Expression of Interest

Lambeth Council is planning to launch a Cycle Hangar trial for businesses in the Waterloo area.

### About the trial

The trial would run for at least a year starting in the summer of 2024. During that time, businesses would be able to rent secure cycle parking to be used by their employees. Each cycle hangar can fit a maximum of 6 bicycles.

### About the expression of interest

During March and April, we will collect expressions of interest from local businesses wanting to take part in the trial. The feedback collected through the expression of interest will shape the trial: renting costs and its usage model (shared/not shared).
